Welcome!

LAKE GARDA, A PLACE TO SAVOUR THE DOLCE VITA

Welcome to Lake Garda, a wonderful Mediterranean oasis
surrounded by gentle hills and protected by Mount Baldo

Mild climate, lush greenery, fascinating sceneries, natural beauty, extraordinary hospitality, excellent local produce, historical and cultural footprints of a charming past and a wide choice of outdoor activities. These are only some of the features that make Lake Garda a great holiday destination, a place to discover. On the eastern shore of the lake, in the midst of the "Olive Riviera" lies the ancient town of BARDOLINO,

protected by the sunny hills that divide Lake Garda and the valley of river Adige.

The town has very ancient origins with evidences of prehistoric, Roman and medieval settlements and it is the ideal starting point to explore the surrounding area. The picturesque centre has the typical layout of a fishing village, with its colourful houses and narrow streets all leading town to the lakefront prome-

nade, where you can enjoy long and relaxing walks. The town is well-known for its olive oil production and for its wine, namely the Bardolino, ruby red in colour and in its rosé version, the Chiaretto. Bardolino offers to its visitors a broad schedule of events: cultural, culinary, musical, sport events occur all year round. If you are looking for a relaxing holiday just a few steps from the lake, we will be happy to fulfill your desires.

AYURVEDIC MEDICINE CENTER

**Wellness, health, energy, balance, satisfaction, vitality, harmony.
All this can be summed up in one word: Ayurveda**

Hotel Caesius Thermae & SPA Resort is the first hotel complex in Italy to have a perfectly equipped Ayurvedic Center, where the millennial Ayurvedic wisdom is passed down through experienced doctors and qualified staff. Starting from an in-depth consultation including pulse diagnosis to determine one's psycho-physical state, a journey to rediscover your body and harmony begins. In Sanskrit, the language in which some of the first sacred texts of hu-

manity were written, "Ayur" means "life" and "Veda" "science" or "knowledge". Ayurveda, Science of Life, relies on an ancient philosophical vision with the purpose of taking care of human life in its manifold aspects, balancing the energies of body and mind, purifying the body by acting not only on physical health but also on environmental, psychological and behavioural aspects. Upon a complete diagnostic picture, the treatments advised by the

Ayurvedic Center of Hotel Caesius Thermae & SPA Resort are personalised to the point of intervening with the most suitable means to balance every single individual. Our guests can benefit from a tailor-made treatment programme to restore stability and well-being and to balance the three vital energies of the body (dosha) through medicine, nutrition, physical activity and cosmetics for a lasting effect on their lifestyle.

but treated as real VIPs**

The mini club, for children from 4 to 13 years, is open Monday to Saturday from June to September; from October to May only on Saturday afternoons and Sunday mornings. In summer everything moves outside: a playground and many activities

await children in the garden next to the kid's swimming pool, to release their creativity and joy.

During meals, our younger guests can choose from a menu of simple themed dishes meant to guarantee a healthy and correct diet. To make meals more entertaining, they are given a special kit with paper placemat to paint on, party hats and a teddy bear.

If you want to have a date night, go ahead. Among the services for chil-

dren we offer a baby sitter who will take care of your kids (prior reservation, for a fee, days and times change according to the season and festivities).
